Free talk at 1pm on Native Plant Gardening

Make your garden water-wise and beautiful at the same time this season by introducing **California native plants**. Native plants also bring habitat value and a sense of place to the garden without requiring additional energy or chemicals. **Speak with experts** about water-wise alternatives to a lawn, including native **perennials, shrubs, wildflowers, and grasses**. Proceeds fund chapter activities such as Gardening With Natives, Field Trips, Conservation, and Education, as well as the Trust for Hidden Villa.
